ABOUT ME

I am an enthusiastic individual studying Informatics at UIN Sunan Gunung Djati Bandung. I aim to develop strong web development skills and become a reliable Fullstack Developer. Besides technical skills, I have good English proficiency and a passion for UI design, creating user-friendly and attractive interfaces. I am eager to keep learning, adapt, and contribute to innovative projects in both frontend and backend development.

EXPERIENCE

Head of Logistic Departement

Dec 2023 - Feb 2024

IT Fair XIII

Led and coordinated a logistics team of 6 members to ensure all operational needs of the event were met on time. Responsible for planning, procuring, and distributing event supplies such as stationery, electronic equipment, and other support materials. Efficiently managed the logistics budget and provided transparent reports to the finance division.

Engineering Trainee

Apr 2022 - Aug 2025

Yello Hotel Paskal Bandung

As a trainee in Engineering at Yello Hotel Paskal, I assisted in repairing buildings, electrical systems, electronic machines, and handling guest complaints. I gained experience in troubleshooting, facility maintenance, and quick coordination to ensure guest comfort.
